Securing Global SAP Compliance

Author: Dr. Sarveshvaran R

Date: January, 10, 2026

The Challenge

- Managing diverse country-specific tax and compliance rules is challenging..
- Missing mandates like e-invoicing and SAF-T can cause penalties
- Connecting cloud and on-premises systems complicates compliance

Solution – SAP DRC

- Unified compliance platform: Centralized solution for global statutory reporting and e-invoicing.
- Automated reporting: Streamlines submission of tax, audit, and regulatory reports.
- Pre-built country templates: Out-of-the-box compliance formats for over 50 jurisdictions.
- Hybrid integration: Seamlessly connects SAP S/4HANA, ECC, and cloud systems.

Result & Discussion

- E-Invoicing: Real-time invoice exchange with tax authorities.
- Statutory Reporting: Automated generation of SAF-T, VAT, GST, and other mandated reports.
- Audit Readiness: Continuous compliance monitoring and audit trail.
- Workflow Automation: Simplified approval and submission processes.
- Global Scalability: Supports multinational operations with localized compliance

Benefits & value

Metric	Value
Compliance accuracy	99%+ automated validation
Reporting efficiency	50% faster submissions
Cost savings	25–35% vs manual processes
Audit readiness	Continuous monitoring

- Automated compliance reduces manual errors and accelerates reporting cycles.
- Savings compared to fragmented, manual compliance solutions

Strategic Impact

- Supports digital transformation by aligning compliance with agility.
- Builds trust with regulators, auditors, and stakeholders.
- Positions enterprises for secure, compliant global growth.
